

B2  
A7

17. The combination as defined in claim 15, wherein both the cavity and immersible object are made so that their walls generally conform in shape, one to the other.

18. The combination as defined in claim 15, in which the function of the combination is to demonstrate a new principle of buoyancy.

19. The combination as defined in claim 15, in which the function of the combination is to visually demonstrate a new principle of buoyancy.

---

REMARKS

Amendments to the specification are made to correct typographical errors and omissions in the text except for those text additions which are intended to supply further explanation and clarification.

Amendments to the claims are made to correct errors and omissions. Additional claims 9-19 have been added to better represent what the applicant claims as new.

Respectfully submitted,

Arthur G. Yeager, Reg.No. 19,892
